ONE FOR ALL®

# URC 8090
Home Producer

User Manual

Your *Home Producer 8* requires four (4) new AAA alkaline batteries. To install the batteries:

1   On the back of the *Home Producer 8*, press down on the black battery cover near the indentation where the black and silver sections meet and push/slide the cover off (see illustration).

2   Match the + and - marks on the batteries to the + and - marks in the battery case, then insert the batteries.

3   Slide the battery cover back into place.

4   (POWER)   Test the unit by pressing **POWER**. If the batteries are inserted correctly, the red light will blink.

*NOTE: Immediately before removing the batteries, please refer to page 8 and re-enter your TV's setup code. This will allow the Home Producer 8 to retain its memory upon removing the batteries. If you do not, upon entering your fresh batteries, the LCD screen may say [MEM FAULT]. If [MEM FAULT] does appear on the LCD screen, press and hold **MAGIC** until the display screen changes from [TV and the TIME] to [TIMED SEQ]. Press the **MENU -** key one time. The display screen will change to [CODE SET UP]. Press **SELECT**. The display will change to [DEV SET UP]. Press **SELECT** and the display screen will change to [TV]. Enter code 9-6-1. Press **SELECT**. Now press and hold **MAGIC** until the display screen changes from [TV and the TIME] to [TIMED SEQ]. Press the **MENU +** key one time. The display screen will change to [CONFIGURE]. Press **SELECT**. The display screen will change to [THEATR SEL]. Press **MENU +** once. The display screen will change to [SERVICE]. Press **SELECT**. The display screen will change to [MFG RESET]. Press **SELECT**. The display screen will change to [SEL TO RS]. Press **SELECT**. The display screen will then return to [TV and the TIME].*

USING YOUR A/V PRODUCER

Features and Functions

The illustration below and the chart on the next two pages describe the features and the functions of the *Home Producer 8's* keypad. The following keys will always have the same function, regardless of which component you are controlling. For an explanation of what each key does by component type, please use the index at the rear of the manual (pages 42-54).

Feature	Function
MAGIC	The **MAGIC** key is used to access the LCD screen menu and program your *Home Producer 8.*
TV **VCR** **CBL** **SAT** **AMP** **TUN** **CD** **AUX1**	The **TV**, **VCR**, **CBL**, **SAT**, **AMP**, **TUN**, **CD**, and **AUX1** keys are used to select the home entertainment component you want to control. If your component does not respond when you press a key on the remote control, press either the **TV**, **VCR**, **CBL**, **SAT**, **AMP**, **TUN**, **CD**, and **AUX1** key to tell the remote control which component you would like to operate.
HOME THEATER	The **HOME THEATER** key is used to select the Home Theater mode of the *Home Producer 8.*
ESC	The **ESC** (Escape) key is used to exit the LCD Screen menu.
LITE	The **LITE** key is used to turn ON and OFF the *Home Producer 8's* backlit keypad and LCD screen. Press the **LITE** key once to turn ON the backlight. The *Home Producer 8's* backlight will stay on for 10 seconds after the last key press and re-activates with the press of a key. To de-activate the backlight, press the **LITE** key again.
POWER	The **POWER** key controls power ON and OFF.
VOL- **VOL+** **MUTE**	The **VOL +** (Volume Up), **VOL-** (Volume Down) and **MUTE** keys control the volume the same as the Volume Up and Down and Mute keys on your original remote.

Feature	Function
CH- **CH+**	The **CH +** (Channel Up) and **CH-** (Channel Down) keys change channels the same as the Channel Up and Down keys on your original remote.
AUD **VID**	The **AUD** and **VID** macro keys memorize up to 15 keystrokes that can be accessed in sequence at the press of a single key. **These keys are not mode specific.**
SHIFT	The **SHIFT** key accesses advanced features that are mapped under the following keys: **CENTER**, **MENU**, **SELECT**, **MUTE**, **PREV CH**, **PIP**, **REW**, **PLAY**, **FF**, **STOP** and **PAUSE**.

SETTING THE CLOCK

To set up the CLOCK/TIME on the display screen:

1 **MAGIC**   Press and hold **MAGIC** until the display screen changes from [DEVICE and the TIME] to [TIMED SEQ].

2 **MENU-** **x 2** **SELECT**   Press the **MENU** - key twice, the display will change to [CONFIGURE]. Press **SELECT**, the display will change to [THEATR SEL].

3 **MENU-** **SELECT**   Press **MENU** - one time, the display will change to [TIME SETUP]. Press **SELECT** again.

4 **0 - 9**   The display will change to [TIME] and the first digit in the time will blink. Enter either a **0** or a **1**, then the next digit in the time will begin to blink, continue entering the time until all four digits of the time have been set.

5 **MENU-** **SELECT**   After the time has been set, AM/PM will then blink. Press **MENU** - to toggle between AM and PM, once AM or PM is selected, press **SELECT**.

6 **MENU-** **SELECT**   The display will then change to the day of the week (MON, TUE, WED, THU, FRI, SAT or SUN). Use **MENU** - to toggle through the days until the proper day of the week is displayed on the screen, then press **SELECT**. The display will return to the [DEVICE and the TIME] screen with the correct time on the display.

SETTING UP YOUR HOME ENTERTAINMENT COMPONENTS

To Set Up Your Television

1   Turn on your TV.

2 | TV | Press and release the **TV** key.

3 MAGIC   Press and hold **MAGIC** until the display screen changes from [TV and the TIME] to [TIMED SEQ].

4 ▼ MENU-   Press the **MENU -** key one time. The display screen will change to [CODE SET UP]. Press **SELECT**. The display will change to [DEV SET UP].
SELECT

5 SELECT   Press **SELECT** and the display screen will change to [TV].

6 SELECT   Enter the first TV code listed for your brand in the "Set Up Codes for TVs" on pages 8-10, then press **SELECT**. Point the remote control at the TV and press **POWER**. Your Television should turn OFF. If your TV turns OFF, press the **ESC** key to return the display to [TV and the TIME]. If your TV does not turn OFF, enter the next code in the code list then press **SELECT** followed by **POWER** again. Once the correct code is entered, press the **ESC** key to return the display to [TV and the TIME].
POWER
ESC

For a detailed explanation of what function each key will perform in the TV mode, please refer to page 45 in the index.

To Set Up Your VCR or TV/VCR Combinations

1 Turn on your VCR and insert a tape.

2 **VCR** Press and release the **VCR** key.

3 **MAGIC** Press and hold **MAGIC** until the display screen changes from [VCR and the TIME] to [TIMED SEQ].

4 **▼ MENU-** **SELECT** Press the **MENU -** key one time. The display screen will change to [CODE SET UP]. Press **SELECT**. The display will change to [DEV SET UP].

5 **SELECT** Press **SELECT** and the display screen will change to [VCR].
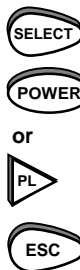

6 **SELECT** **POWER** **or** **PL** **ESC** Enter the first VCR code listed for your brand in the "Set Up Codes for VCRs" on pages 11-12, then press **SELECT**. Point the remote control at the VCR and press **POWER** or **PLAY**. Your VCR should turn OFF or start to play. If your VCR turns OFF or starts to play, press the **ESC** key to return the display to [VCR and the TIME]. If your VCR does not turn OFF or start to play, enter the next code in the code list then press **SELECT** followed by **POWER** or **PLAY** again. Once the correct code is entered, press the **ESC** key to return the display to [VCR and the TIME].

For a detailed explanation of what function each key will perform in the VCR mode, please refer to page 47 in the index.

TV/VCRs working on 060 will need TV code 047 for volume control.
TV/VCRs working on 081 will need TV code 054 for volume control.
TV/VCRs working on 162 will need TV code 250 for volume control.
TV/VCRs working on 294 will need TV code 236 for volume control.

To Set Up Your Cable Box:

1 Turn on your Cable Box.

2 Press and release the **CBL** key.

3 Press and hold **MAGIC** until the display screen changes from [CABLE and the TIME] to [TIMED SEQ].

4 Press the **MENU -** key one time. The display screen will change to [CODE SET UP]. Press **SELECT**. The display will change to [DEV SET UP].

5 Press **SELECT** and the display screen will change to [CABLE].

6 Enter the first Cable Box code listed for your brand in the "Set Up Codes for Cable Boxes" on page 14, then press **SELECT**. Point the remote control at the Cable Box and press **POWER**. Your Cable Box should turn OFF. If your Cable Box turns OFF, press the **ESC** key to return the display to [CABLE and the TIME]. If your Cable Box does not turn OFF, enter the next code in the code list then press **SELECT** followed by **POWER** again. Once the correct code is entered, press the **ESC** key to return the display to [CABLE and the TIME].

Note: *If your original Scientific Atlanta remote control does not have an "ON" key, press **CH+** or one of the digit keys on the Home Producer 8 to turn your Cable Box on.*

Set Up Codes For Cable Boxes

To Set Up Your DSS or Satellite Receiver

1 Turn on your DSS or Satellite Receiver.

2 SAT Press and release the **SAT** key.

3 MAGIC Press and hold **MAGIC** until the display screen changes from [SAT and the TIME] to [TIMED SEQ].

4 MENU- SELECT Press the **MENU -** key one time. The display screen will change to [CODE SET UP]. Press **SELECT**. The display will change to [DEV SET UP].

5 SELECT Press **SELECT** and the display screen will change to [SAT].

6 SELECT POWER ESC Enter the first Satellite code listed for your brand in the "Set Up Codes for Satellites" on page 15, then press **SELECT**. Point the remote control at the Satellite and press **POWER**. Your Satellite should turn OFF. If your Satellite turns OFF, press the **ESC** key to return the display to [SAT and the TIME]. If your Satellite does **not** turn OFF, enter the next code in the code list then press **SELECT** followed by **POWER** again. Once the correct code is entered, press the **ESC** key to return the display to [SAT and the TIME].

For a detailed explanation of what function each key will perform in the Satellite mode, please refer to page 52 in the index.

To Set Up Your Laser Disc Player:

1   Turn on your Laser Disc Player and insert a disc.

2   **AUX1**   Press and release the **AUX 1** key.

3   **MAGIC**   Press and hold **MAGIC** until the display screen changes from [LDP and the TIME] to [TIMED SEQ].

4   **MENU-** **SELECT**   Press the **MENU -** key one time. The display screen will change to [CODE SET UP]. Press **SELECT**. The display will change to [DEV SET UP].

5   **SELECT**   Press **SELECT** and the display screen will change to [LDP].

6   **SELECT** **POWER** **or** **PL** **ESC**   Enter the first Laser Disc code listed for your brand in the "Set Up Codes for Laser Disc Players" on page 16, then press **SELECT**. Point the remote control at the Laser Disc Player and press **POWER** or **PLAY**. Your Laser Disc Player should turn OFF or play your disc. If your Laser Disc Player turns OFF or plays your disc, press the **ESC** key to return the display to [LDP and the TIME]. If your Laser Disc Player does **not** turn OFF or play your disc, enter the next code in the code list then press **SELECT** followed by **POWER** or **PLAY** again. Once the correct code is entered, press the **ESC** key to return the display to [LDP and the TIME].

For a detailed explanation of what function each key will perform in the AUX1 mode, please refer to page 50 in this index.

Set Up Codes for Laser Disc Players

To Set Up Your Tuner/Receiver

1 Turn on your Tuner/Receiver.

2 [TUN] Press and release the **TUN** key.

3 [MAGIC] Press and hold **MAGIC** until the display screen changes from [TUN and the TIME] to [TIMED SEQ].

4 [▼ MENU-] [SELECT] Press the **MENU -** key one time. The display screen will change to [CODE SET UP]. Press **SELECT**. The display will change to [DEV SET UP].

5 [SELECT] Press **SELECT** and the display screen will change to [TUNER].

6 Enter the first Tuner code listed for

[SELECT] [POWER] [ESC] your brand in the "Set Up Codes for Tuner/Receivers" on page 19, then press **SELECT**. Point the remote control at the Tuner/Receiver and press **POWER**. Your Tuner/Receiver should turn OFF. If your Tuner/Receiver turns OFF, press the **ESC** key to return the display to [TUN and the TIME]. If your Tuner/Receiver does **not** turn OFF, enter the next code in the code list then press **SELECT** followed by **POWER** again. Once the correct code is entered, press the **ESC** key to return the display to [TUN and the TIME].

Note: *If your Tuner/Receiver does not respond to the codes listed for your brand, try the Amplifier codes listed for your brand on page 20.*

For a detailed explanation of what function each key will perform in the Tuner mode, please refer to page 54 in the index.

To Set Up Your Amplifier

1   Turn on your amplifier.

2   **[AMP]**   Press and release the **AMP** key.

3   **[MAGIC]**   Press and hold **MAGIC** until the display screen changes from [AMP and the TIME] to [TIMED SEQ].

4   **[MENU-]** **[SELECT]**   Press the **MENU -** key one time. The display screen will change to [CODE SET UP]. Press **SELECT**. The display will change to [DEV SET UP].

5   **[SELECT]**   Press **SELECT** and the display screen will change to [AMP].

6   **[SELECT]** **[POWER]** **[ESC]**   Enter the first Amplifier code listed for your brand in the "Set Up Codes for Amplifiers" on page 20, then press **SELECT**. Point the remote control at the Amplifier and press **POWER**. Your Amplifier should turn OFF. If your Amplifier turns OFF, press the **ESC** key to return the display to [AMP and the TIME]. If your Amplifier does **not** turn OFF, enter the next code in the code list then press **SELECT** followed by **POWER** again. Once the correct code is entered, press the **ESC** key to return the display to [AMP and the TIME].

For a detailed explanation of what function each key will perform in the Amplifier mode, please refer to page 55 in the index.

Set Up Codes for Audio Amplifiers

Accuphase	382	Nakamichi	321
Acurus	765	NEC	264
AudioSource	011	Optimus	013, 300, 395
Carver	269	Panasonic	308

Forte	606	Realistic	395
GE	078	Sansui	321
Goldstar	031	Shure	264
Harman/Kardon	106	Sony	220, 689
JVC	331	Soundesign	078, 211
Kenwood	356	Technics	308
Luxman	165	Victor	331
Magnavox	269	Wards	013, 078, 211
Marantz	269, 321	Yamaha	133, 143, 354,
McIntosh	251		504

SEARCHING FOR YOUR CODE

If your components do not respond to the *Home Producer 8* after trying all of the codes listed for your brand, or if your brand is not listed at all, try searching for your code. For example, after trying all of the codes for your brand of TV, you still cannot get the *Home Producer 8* to operate your TV, then:

1   **[TV]**   Press and release the **TV** key.

2   **[MAGIC]**   Press and hold **MAGIC** until the display screen changes from [TV and the TIME] to [TIMED SEQ].

3   **[MENU-]** **[SELECT]**   Press the **MENU -** key one time. The display screen will change to [CODE SET UP]. Press **SELECT**. The display will change to [DEV SET UP].

4   **[MENU-]** **[SELECT]**   Press the **MENU -** key one time. The display screen will change to [DEV SEARCH]. Press **SELECT**. The display will change to [TV and XXX].

Note: *XXX represents the last 3 digit code that was entered prior to starting the search.*

5   **[POWER]** **[SELECT]** **or** **[MENU-]**   Press **POWER**. If your TV turns OFF, press **SELECT** to lock in your code and return the display to [TV and the TIME]. If your TV does not turn OFF, press **MENU -**. The next available code will appear on the display screen, then press **POWER** again. Continue to press **POWER** then **MENU -** until your TV turns OFF. Once your TV turns OFF, press **SELECT** to lock in your code and return the display to [TV and the TIME].

Note: *If you are searching for your VCR, CD Player, Laser Disc Player or DVD Player code, you may want to use **PLAY** instead of **POWER**. Once your component plays, press **SELECT** to lock in your code.*

Finding Out Your Code

After you have set up your components using the search, you may need to find out which three-digit code is operating your components. For example, to find out what three-digit code is operating your TV:

1 [TV] Press and release the **TV** key.

2 (MAGIC) Press and hold **MAGIC** until the display screen changes from [TV and the TIME] to [TIMED SEQ].

3 (▼ MENU-) (SELECT) Press the **MENU -** key one time. The display screen will change to [CODE SET UP]. Press **SELECT**. The display will change to [DEV SET UP].

4 (▼ MENU-) **x 2** (SELECT) Press the **MENU -** key two times. The display screen will change to [DEV NUMBER]. Press **SELECT**. The display screen will then change to [TV and your code]. Once you have written your three-digit code down, press **ESC** to return the display to [TV and the TIME].

Satellite Code ☐ ☐ ☐

Tuner Code ☐ ☐ ☐

Amplifier Code ☐ ☐ ☐

CD Player Code ☐ ☐ ☐

AUX1 Code ☐ ☐ ☐

SETTING UP ADDITIONAL HOME ENTERTAINMENT COMPONENTS

Besides the device keys that are already labeled (TV, VCR, CBL, etc.), the *Home Producer 8* can also operate the following components: DVD Players, Cassette Decks, Home Automation, Digital Audio Tape, Phonographs, Video Accessories and Miscellaneous Audio Components (Graphic Equalizers and Digital Music Service Boxes).
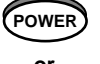

The Set Up codes for these devices can be accessed under the following device keys:

DVD Players:	Use the **AUX1** Key
Cassette Decks:	Use the **AUX1** Key
Home Automation:	Use the **CD** Key
Digital Audio Tape:	Use the **AUX1** Key
Phonographs:	Use the **CD** Key
Video Accessories:	Use the **CBL** Key
Miscellaneous Audio:	Use the **AMP** Key

Note: *Each device key (**TV, VCR, CBL** etc.) can only operate one component at a time. If you have already set up a component on a key, then assigning a second component on the same key will erase the code for the first component you set up. For example, if you set up a Laser Disc Player on **AUX1** and then set up a DVD Player on **AUX1**, the Home Producer 8 will only operate the DVD Player.*

For example, to set up a DVD Player on the **AUX1** key:

1 Turn on your DVD Player and insert a disc.

2 [AUX1] Press and release the **AUX1** key.

3 (MAGIC) Press and hold **MAGIC** until the display screen changes from [LDP and the TIME] to [TIMED SEQ].

4 (▼ MENU-) (SELECT) Press the **MENU -** key one time. The display screen will change to [CODE SET UP]. Press **SELECT**. The display will change to [DEV SET UP].

5 (SELECT) Press **SELECT** and the display screen will change to [LDP].

6 ▼ MENU- / SELECT / POWER / or / PL / ESC — Press **MENU -** to toggle between [LDP], [DVD], [TAPE] and [DAT]. Once [DVD] is on the display screen, enter the first DVD Player code listed for your brand in the "Set Up Codes for DVD Players" on page 25, then press **SELECT.** Point the remote control at the DVD Player and press **POWER** or **PLAY**. Your DVD Player should turn OFF or play your disc. If your DVD Player turns OFF or plays your disc, press the **ESC** key to return the display to [DVD and the TIME]. If your DVD Player does not turn OFF or play your disc, enter the next code in the code list then press **SELECT** followed by **POWER** or **PLAY** again. Once the correct code is entered, press the **ESC** key to return the display to [DVD and the TIME].

Re-assigning Device Keys

You can use the *Home Producer 8* to operate a second TV or a second VCR or any combination of eight devices. To do this, you must re-assign one of the device keys (**TV**, **VCR/LD**, **CBL**, **SAT**, **AMP**, **TUN** or **CD**) to operate your second device. For example, to re-assign one of the device keys to support your other components:

1 MAGIC — Press and hold **MAGIC** until the display screen changes from [DEVICE and the TIME] to [TIMED SEQ].

2 ▼ MENU- x 2 / SELECT — Press the **MENU -** key twice. The display screen will change to [CONFIGURE]. Press **SELECT**. The display will change to [THEATER SEL].

3 ▼ MENU- x 3 / SELECT — Press the **MENU -** key three times. The display screen will change to [MODE MAP]. Press **SELECT**. The display screen will change to [SOURCE].

4 **(Device Key)** Press the device key you would like to move (for DVD Players it would be AUX1 or for a second TV, it would be the TV key). The display screen will change to [COPY TO]. Now press the unused device key you would like to replace. The display will change to [DEVICE2 and the TIME]. Now, proceed with programming the re-assigned device key with the appropriate code.

Note: *Initially, moving **AUX 1** to another key will display [LDP2]. To access [DVD2], you must follow instructions on page 23 to access "Additional Home Entertainment Components."*

SETTING UP THE HOME THEATER MODE KEY

The HOME THEATER mode key brings all of the most commonly used home theater functions into one mode of the remote control. Setting up the HOME THEATER mode key will allow you to configure the keypad to your specific home theater needs.

1 Press and release the **HOME THEATER** mode key.

2 Press and hold **MAGIC** until the display screen changes from [THEATER and the TIME] to [TIMED SEQ].

3 **x 2** Press the **MENU -** key twice, the display will change to [CONFIGURE]. Press **SELECT**, the display will change to [THEATR SEL], press **SELECT**. The display will change to [AUDIO].

4 **(Device Key)** Press **SELECT**. This will change the display to [AMP] or, if you have redefined the **AMP** key, the display would read [TV2], [DVD2], [SAT2] and so on. At this screen you will select the device that will control your Volume in the Home Theater Mode. Use the device keys (**AMP**, **TUNER**, **TV**, **CABLE, SAT** or **AUX1**) to choose your AUDIO selection. Once you choose the AUDIO source, press **SELECT**. For example, if your Tuner will control your volume in the Home Theater Mode, press **TUN + SELECT**. The display will change to [CHANNEL]. This will allow you to choose the device that will control your channel changing.

5 **SELECT**

(Device Key)

SELECT

Press **SELECT**. This will change the display to [TV]. Use the device keys (**TV**, **VCR**, **SAT**, **CBL** or **AUX 1**) to choose your CHANNEL source, then press **SELECT**. For example, if your Satellite will control your channel changing in the Home Theater Mode, press **SAT + SE-LECT**. The display will change to [PLAYBACK]. This will allow you to choose the device that will control the transport keys (**PLAY**, **REW**, **FF**, **PAUSE**, **STOP** and **REC**).

6 **SELECT**

(Device Key)

SELECT

Press **SELECT**. This will change the display to [VCR]. Use the device keys (**CD**, **VCR** or **AUX 1** [LDP]) to choose your PLAYBACK source, then press **SELECT**. For example, if your Laser Disc Player will control your playback in the Home Theater Mode, press **AUX 1 + SELECT**. The display will change to [PIP]. This will allow you to select the device that will control your Picture-in-Picture features.

7 **SELECT**

(Device Key)

SELECT

Press **SELECT**. This will change the display to [TV]. Use the device keys (**TV**, **CBL** or **VCR**) to choose your Picture-in-Picture source, then press **SELECT**. For example, if your VCR will control your Picture-in-Picture features in the Home Theater Mode, press **VCR + SELECT**. The display will then return to the [DEVICE and the TIME] screen.

After you have set up the Home Theater Mode key, you can then set up a macro sequence on the **POWER** key in the Home Theater Mode. This **POWER** key macro will then be able to activate all of the devices in the Home Theater Mode.

Power Key Macro - Powering ON Your Home Theater Components with One Key

1 **HOME THEATER**

MAGIC

▼ **x 2**
MENU-

SELECT

Press and release the **HOME THEATER** Mode key, then press and hold **MAGIC** until the display screen changes from [THEATER and the TIME] to [TIMED SEQ]. Press the **MENU -** key twice, the display will change to [CONFIGURE]. Press **SELECT**, the display will change to [THEATR SEL].

2 **▼** **x 4**
MENU-

SELECT

Press **MENU -** four times until the display reads [KEY MACRO]. Press **SELECT**. The display will read [SEL MACKEY].

3 **POWER**

Press the **POWER** key to assign the macro to **POWER**. Enter the macro sequence that will power "ON" your home theater, for example:

(Sequence) **TUN + POWER + TV + POWER + VCR + POWER +** Etc. until you have added all of your home theater components.

4 **ESC**

When your macro sequence is concluded, press **ESC** to save. The display will then return to the [THEATER and the TIME] screen.

POWER

To activate the Home Theater Power macro, the LCD screen must read [THEATER], and you must press **POWER**.

*NOTE: You cannot use either the **AUD** or **VID** macro keys in your Home Theater Power key macro.*

The *Home Producer 8* is equipped with a special feature that lets the user set up a sequence of key-strokes that can be played back at a specified time, up to seven days in advance. This feature can be used to set up sequences that will record from your DSS satellite, turn on your infrared home automation lighting system when you are not home or any other series of keystrokes that you would like to play back at a later time. You can store up to a total of ten sequences in the memory of the *Home Producer 8* with each sequence having a maximum of 15 keystrokes For example, to set up the remote to record a program off of your DSS Satellite:

1 Press and hold **MAGIC** until the display screen changes from [DE-VICE and the TIME] to [TIMED SEQ]. Press **SELECT**. The display will change to [ADD MACRO]. Press **SELECT** again.

2 0 **or** 9 The display will change to [START and the TIME], with the first digit of the TIME blinking. Enter either a **0** or a **1**, then the next digit in the time will begin to blink, continue entering the time until all four digits of the time have been set. After the time has been set, AM/PM will then blink. Press **MENU -** to toggle between AM and PM, once AM or PM is selected, press **SELECT**.

3 The display will then change to [ONCE]. Use the **MENU -** key to toggle between [ONCE], [DAILY] or [WEEKLY], depending on when and how often the sequence needs to play. After [ONCE], [DAILY] or [WEEKLY] is chosen, press **SELECT**.

4 The display will change to the day of the week that you want the se-quence to begin. Use **MENU -** to toggle through the days of the week until the proper day is on the display screen. Press **SELECT**. The display will change to [SELECT SEQ].

For example, enter a sequence that will start your VCR recording your DSS Satellite channel.

SAT + **POWER** + **SAT** + **2** + **7** + **5** + **VCR** + **POWER** + **VCR** + **RECORD**.

This sequence will turn on the DSS, change the channel to 275, turn on the VCR and start the VCR recording.

5 ESC Once the sequence has been set up, press the **ESC** key to return to the [DEVICE and the TIME] display screen. Below the [TIME], a CLOCK (Ⓒ) symbol will appear to show that there is a timed sequence in the memory.

Note: *If, at any time during the set up of your timed sequence, a mistake is made, press the ESC key to return to the main display [DEVICE and the TIME] . Now, delete the sequence that was incorrect and restart your timed sequence.*

To Delete a Timed Sequence

1 Press and hold **MAGIC** until the display screen changes from [DEVICE and the TIME] to [TIMED SEQ]. Press **SELECT**. The display will change to [ADD MACRO]. Press **MENU -** one time. The display will change to [DEL MACRO]. Press **SELECT**.

2 SELECT The display will then change to [DEL (the DAY or D for Daily or W for WEEKLY) and (the TIME of the Sequence)]. If this is the timed sequence you would like to delete, press **SELECT**. The display will change to [DELETED] then return to [DEVICE and the TIME].

Note: *If you have more than one timed sequence saved in the memory of the Home Producer, use the MENU - key to scroll through your saved timed sequences until you see the sequence you would like to delete. Once the sequence is displayed on the screen, press SELECT. The display will change to [DELETED] then return to [DEVICE and the TIME].*

The *Home Producer 8* has two Macro keys (**AUD** and **VID**) that allow the user to play back a series of key strokes at any time with the press of one key. Each sequence can have up to a maximum of 15 keystrokes. For example, to set up a sequence that will turn on your devices and turn the devices to the proper inputs:

1 **MAGIC** Press and hold **MAGIC** until the display screen changes from [DEVICE and the TIME] to [TIMED SEQ]. Press **MENU -** twice until the display reads [CONFIGURE], then press **SELECT**. The display will then read [THEATR SEL].

▼ x 2
MENU-

SELECT

2 **▼ x 4** Press **MENU -** four times until the display reads [KEY MACRO]. Press **SELECT**. The display will read [SEL MACKEY]. Press either the **AUD** or **VID** sequence key. This will be the key that will play back the series of keystrokes assigned to that key. The display will then read [SELECT SEQ]. Begin entering the sequence of keystrokes, up to 15, that you wish to be played back when you press either **AUD** or **VID**. For example:

MENU-

SELECT

AUD
or
VID

(Sequence) **TUN** + **POWER** + **TV** + **POWER** + **TV/SAT** (To change the input on the TV to VIDEO 1) + **SAT** + **POWER**.

*NOTE: You cannot use either the **AUD** or **VID** keys in your macro sequence.*

3 **ESC** When your macro sequence is concluded, press **ESC** to save.

Whenever the sequence key is pressed, the Tuner will power ON, the TV will power ON and change the input to VIDEO 1 and then the Satellite will power ON.

Repeat these steps to then setup the other sequence key (either **AUD** or **VID**) to your needs.

NOTE: If you make a mistake during the setup of a macro sequence, press ESC to return to the main display screen and begin the setup of your sequence again.

HOW TO USE THE SHIFT KEY

The *Home Producer 8* has features that can be accessed by using the **SHIFT** key. These features are listed above the key that they are mapped to. For example, on the transport keys (**PLAY**, **REW**, **FF**, **STOP** and **PAUSE**) there are the following features: **SLOW**, **SLOW +**, **SLOW -**, **X2** and **EJECT**. These are accessed by pressing **SHIFT** and the key, for example, to eject a tape from your VCR press:

SHIFT + STOP

This will eject your tape, as long as your original remote supported this feature.

*Note: Once you have pressed the **SHIFT** key, the Home Producer 8 will remain in the "Shift" mode, indicated by a ⑤ on the LCD screen, for 5 seconds after the last key press or until the **SHIFT** key is pressed again.*

The following keys have functions that are shifted:

CENTER: **SHIFT + CENTER = REAR**
MENU: **SHIFT + MENU = PROGRAM**
SELECT: **SHIFT + SELECT = CLEAR**
MUTE: **SHIFT + MUTE = SLEEP**
PREV CH: **SHIFT + PREV CH = DISPLAY**
PIP: **SHIFT + PIP = FREEZE PIP**
REW: **SHIFT + REW = SLOW-**
PLAY: **SHIFT + PLAY = SLOW**
FF: **SHIFT + FF = SLOW +**
STOP: **SHIFT + STOP = EJECT**
PAUSE: **SHIFT + PAUSE = X2**

For a more detailed explanation of what function each shifted key performs by device type (TV, VCR, etc.), please refer to pages 45 through 57.

HOW TO USE THE SLEEP KEY

The *Home Producer 8* has a **SLEEP** key that either operates your component's sleep timer or, if your component does not have a sleep timer, it activates the *Home Producer 8's* built-in sleep timer, after you activate SLEEP LOCK. To use the *Home Producer 8's* **SLEEP** key, press **SLEEP** (**SHIFT + MUTE**).

If your component does not have a sleep timer, the *Home Producer 8* will access its own built-in timer. To activate the built-in sleep timer, press **SLEEP** (**SHIFT + MUTE**). The display will change to [SLEEP 15]. To add time to the sleep timer, press **MENU -**. Each press of **MENU -** will add 15 minutes to the sleep timer, up to a total of 60 minutes. Once the desired time is displayed on the LCD screen, press **SELECT**. The display screen will change to [SLEEP and the TIME].

Sleep Lock

If you would like the *Home Producer 8* to use its built-in sleep timer on all of your components, you can lock the SLEEP mode. To set-up the *Home Producer 8* to use the internal sleep timer on all components:

1 (MAGIC) Press and hold **MAGIC** until the display screen changes from [DEVICE and the TIME] to [TIMED SEQ].

2 (MENU-) **x 2** (SELECT) (MENU+) (▲) **x 2** (SELECT) Press the **MENU -** key twice, the display will change to [CONFIGURE]. Press **SELECT**, the display will change to [THEATR SEL]. Press **MENU +** twice, the display will read [SLEEP LOCK]. Press **SELECT**, the display will change to [DISABLE].

3 (MENU-) (SELECT) Press **MENU -** one time to change the display to [ENABLE] then press **SELECT**. The display will return to [DEVICE and the TIME]. Now, whenever you press **SLEEP** (**SHIFT + MUTE**), the *Home Producer 8* will use its own built-in sleep timer.

VOLUME LOCK

With the *Home Producer 8,* you can choose which home entertainment component controls your volume. When you originally set up the *Home Producer 8,* each individual component operates its own volume, provided the component has volume control. You can change this setting so that one component controls the volume no matter which component the *Home Producer 8* is operating. For example, to set-up the *Home Producer 8* to always control the volume through your Amplifier:

1 (MAGIC) Press and hold **MAGIC** until the display screen changes from [DEVICE and the TIME] to [TIMED SEQ].

2 (▼) **x 2** (MENU-) (SELECT) Press the **MENU -** key twice, the display will change to [CONFIGURE]. Press **SELECT**, the display will change to [THEATR SEL].

3 (▼) **x 2** (MENU-) (SELECT) Press **MENU -** two times, the display will read [VOL LOCK]. Press **SELECT**, the display will change to [UNLOCK].

4 (▼) (MENU-) (SELECT) (Device Key) (SELECT) Press **MENU -** one time to change the display to [LOCK] then press **SELECT**. Now press the key for the component that will control your volume. In this example, to control the volume through your amplifier, press **AMP**. Press **SELECT**. The display will return to [DEVICE and the TIME].

Now, when you use the volume keys on your *Home Producer 8,* the volume will be controlled by the specified component.

To return volume control to each individual component:
1 (MAGIC) Press and hold **MAGIC** until the display screen changes from [DEVICE and the TIME] to [TIMED SEQ].

2 ▼ MENU- **x 2** SELECT   Press the **MENU -** key twice, the display will change to [CONFIGURE]. Press **SELECT**, the display will change to [THEATR SEL].

3 ▼ MENU- **x 2** SELECT   Press **MENU -** two times, the display will read [VOL LOCK]. Press **SELECT**, the display will change to [LOCK].

4 ▼ MENU- SELECT   Press **MENU -** one time to change the display to [UNLOCK] then press **SELECT**. The display will return to [DEVICE and the TIME].

Now, when you use the volume keys on your *Home Producer 8,* each component will control its own volume, as long as that component originally had volume control.

KEYMOVER

Keymover allows you to map features from one device mode to another. For example, if your VCR does not have volume control, you can map the volume keys in the TV mode to the VCR mode. This will allow you to control the volume of your TV while in the VCR mode. To Keymove features from one mode to another:

1 MAGIC   Press and hold **MAGIC** until the display screen changes from [DEVICE and the TIME] to [TIMED SEQ].

2 ▼ MENU- **x 2** SELECT MENU+ ▲ **x 3** SELECT   Press the **MENU -** key twice, the display will change to [CONFIGURE]. Press **SELECT**, the display will change to [THEATR SEL]. Press **MENU +** three times, the display will read [KEY MOVER]. Press **SELECT**, the display will change to [FROM].

3 **(Device Key)** Press the device key (**TV**, **VCR**, **CBL**, etc.) that contains the feature you want to move. For the example above, to move the TV's volume, you would press **TV.** The display will show the device key that was just pressed.

4 VOL- VOL+ **(Device Key)** Press the key for the feature you want to move. For the example above, press **VOL +**. The display will change to [TO]. Press the device key (**TV**, **VCR**, **CBL**, etc.) where you would like to place the feature. For the example above, you would press **VCR.** The display will show the device key that was just pressed.

5 **VOL-** **VOL+** Now press the key that will control the feature you are moving. For the example above, press **VOL +**. The display will return to [DEVICE and the TIME]. In the VCR mode, your *Home Producer 8* will now operate volume up on your TV. Now, to complete the example above, repeat this sequence to move **VOL -** and **MUTE** from the TV mode to the VCR mode.

CLEAR ALL

If you would like to reset the *Home Producer 8* of all advanced functions, use the CLEAR ALL feature. The CLEAR ALL feature will erase the following functions from the memory of the *Home Producer 8:* Macro Sequences, Timed Macro Sequences, Volume Lock and Keymovers. CLEAR ALL will not erase your set-up codes. To clear the memory using the CLEAR ALL feature:

1 **MAGIC** Press and hold **MAGIC** until the display screen changes from [DEVICE and the TIME] to [TIMED SEQ].

2 **MENU-** **SELECT** **MENU+** **SELECT** **x 2** Press the **MENU -** key twice, the display will change to [CONFIGURE]. Press **SELECT**, the display will change to [THEATR SEL]. Press **MENU +** one time, the display will read [CLEAR ALL]. Press **SELECT**, the display will change to [CLR ALL].

3 **SELECT** **x 2** Press **SELECT**, the display will change to [CONFIRM]. Press **SELECT** once more and the display will return to [DEVICE and the TIME]. Your *Home Producer 8* is now reset.

SETTING UP AND USING THE IR/RF COMMAND CENTER

The *Home Producer 8* comes with an IR/RF Command Center which receives Radio Frequency (RF) signals from your *Home Producer 8,* anywhere in your home, up to 100 feet away. The Command Center then converts the RF signal into an Infrared signal to control your home theater components. To setup the Command Center:

1 Find a location approximately 8 feet in front of your home theater components.

NOTE: The location should have access to both your equipment (line-of-sight) and an outlet to plug in the Command Center.

2 Plug in the Command Center's Power Cord and raise the telescoping antenna.

Telescoping Atenna
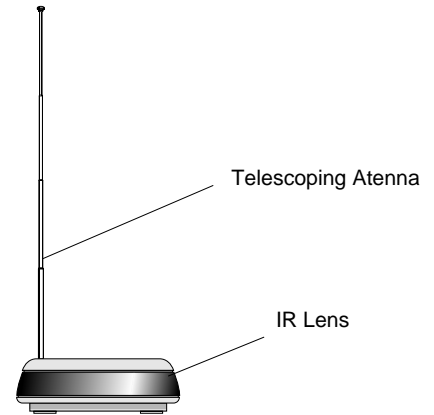

IR Lens

3 Position the Command Center so the black IR lens is aimed at your home theater components.

4 Test the Command Center by pressing the POWER key on the *Home Producer 8*. Your components should operate from any room in your home, up to 100 feet away.

NOTE: The Home Producer 8 transmits both an IR and an RF signal simultaneously. When you are testing the Command Center with Home Producer 8, make sure that the remote control is not aimed at your equipment.

The Command Center also includes an additional IR signal extension cord for use with a component that is not in direct line-of-sight of the Command Center. If you have a component that is not in the line-of-sight of the Command Center:

1   Plug the 4 ft. IR signal extension cord into the back of the Command Center.
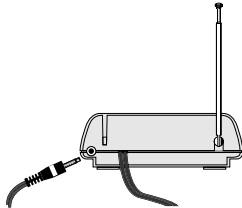

2   Run the IR signal extension cord to the component that is not in the line-of-sight of the Command Center.

3   Using the supplied double-sided tape, attach the IR signal extension cord so that the LED is over or next to the IR sensor of your home theater component.
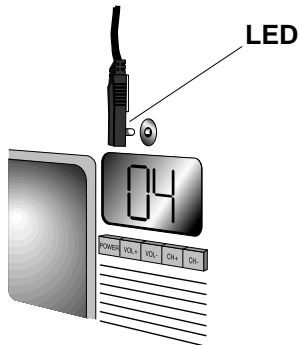

4   Test the *Home Producer 8.* The Command Center will convert the RF signal from the *Home Producer 8* into and IR signal and transmit that signal to your component through the IR signal extension cord.

NOTE: If the IR signal extension cord does not control the component that is not in the line-of-sight of the Command Center, reposition the LED until the component is able to be controlled, then re-attach the LED.

COMPLIANCE WITH THE FCC RULES AND REGULATIONS

This equipment has been tested and found to comply with the limits for a class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and radiates radio frequency energy and if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try and correct the interference by one or more of the following measures:

*   Reorient or relocate the receiver antenna
*   Increase the separation between the equipment and the receiver
*   Connect the equipment into an outlet that is different from that to which the receiver is connected
*   Consult the dealer or an experienced radio/television technician for help

The user is cautioned that changes and modifications made to the equipment without the approval of the manufacturer could void the user's authority to operate his equipment.

FCC Authorization Label
This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1)   This device may not cause harmful interference and
(2)   This device must accept any interference received, including interference that may cause undesired operation.

FCC ID #:
Home Producer 8: **MG3N868629**
Command Center: MG3-15-1925R

RF Command Console Weight .... 10.4 oz (300g)

Specifications are typical: individual units might vary.
Specifications are subject to change and improvement without notice.

Problem:	Solution
LCD screen begins to fade, does not appear or the red light blinks five times when you press a key?	Replace the batteries with four (4) new AAA alkaline batteries. Immediately before removing the batteries, please refer to page 8 and re-enter your TV's setup code. This will allow the *Home Producer 8* to retain its memory upon removing the batteries. If you do not, upon entering your fresh batteries, the LCD screen may say [MEM FAULT].
[MEM FAULT] appears on the LCD screen.	If [MEM FAULT] does appear on the LCD screen, press and hold **MAGIC** until the display screen changes from [TV and the TIME] to [TIMED SEQ]. Press the **MENU -** key one time. The display screen will change to [CODE SET UP]. Press **SELECT**. The display will change to [DEV SET UP]. Press **SELECT** and the display screen will change to [TV]. Enter code 9-6-1. Press **SELECT**, then **ESC**. Now press and hold **MAGIC** until the display screen changes from [TV and the TIME] to [TIMED SEQ]. Press the **MENU +** key one time. The display screen will change to [CONFIGURE]. Press **SELECT**. The display screen will change to [THEATR SEL]. Press **MENU +** once. The display screen will change to [SERVICE]. Press **SELECT**. The display screen will change to [MFG RESET]. Press **SELECT**. The

Problem:	Solution
	display screen will change to [SEL TO RS]. Press **SELECT**. The display screen will then return to [TV and the TIME].
The Home Producer 8 does not operate your home entertainment component?	Try all of the codes listed for your brand of home entertainment component in the "Set-Up Codes" section. If this does not work, try searching for your code. **Make sure the home entertainment component you are setting up is able to be operated with an infrared remote control.**
The *Home Producer 8* is not performing commands properly?	Try all of the codes listed for your brand of home entertainment component in the "Set-Up Codes" section. Many set-up codes may allow some degree of operation. However, only one set-up code will work correctly with your home entertainment component.
You make a mistake when setting up your *Home Producer 8*?	During any set up procedure, except for Macros and Timed Sequences, the **ESC** key will return you to the [DEVICE and the TIME] screen without saving. If you make a mistake when setting up a Timed Sequence, return to the Timed Sequence menu and delete the incorrect sequence. If you make a mistake when saving a macro, erase the incorrect macro by re-saving a new macro on the same key.

Problem:	Solution
VCR not recording?	As a safety feature on the *Home Producer 8,* you must press the **REC** key twice.
Channel +/- and PREV CH not working for your RCA TV?	Due to RCA design (1983-1987), only the original remote control will operate these functions.
Problems changing channels?	If your original remote control required an ENTER keystroke when changing channels, press the **ENTER** key on the *Home Producer 8* after you enter the channel number.
The red light blinks when you press a key but you receive no response from your home entertainment component?	Make sure you are aiming your *Home Producer 8* at your home entertainment component and that you are within 15 feet before using your remote.
Your audio components turn on and off and control the volume but do not change your preset channels?	Some audio components may need both a Tuner/ Receiver code and an Audio Amplifier code to control all of the features of your audio component.
Your DSS satellite receiver does not respond to the codes listed in the manual?	The codes listed in the manual are set up to operate your DSS receiver on the 1st or 2nd addresses only. Make sure the DSS Receiver you are setting up is able to be operated with an infrared remote control and not set up to only receive Radio Frequency.

One For All PRODUCTS
Limited Warranty

Universal Electronics Inc. ("UEI") warrants, to the original purchaser only, that this product will be free from defects in materials and workmanship, under normal use, for ninety (90) days from the date of original purchase.

This warranty does not cover damage or failures caused by products or services not supplied by UEI, or which result from accident, misuse, abuse, neglect, mishandling, misapplication, faulty installation, set-up adjustment, improper maintenance, alteration, maladjustment of consumer controls, modifications, commercial use, or that is attributable to acts of God.

There are no express warranties except as listed above. UEI SHALL NOT BE LIABLE FOR INCIDENTAL OR CONSEQUENTIAL DAMAGES RESULTING FROM THE USE OF THIS PRODUCT OR ARISING OUT OF ANY BREACH OF WARRANTY. ALL EXPRESS AND IMPLIED WARRANTIES, INCLUDING THE WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE, ARE LIMITED TO THE WARRANTY PERIOD SET FORTH ABOVE. Some states do not allow the exclusion or limitation of incidental or consequential damages, or limitations on how long an implied warranty lasts, so the above exclusions or limitations may not apply to you. This warranty gives you specific legal rights and you may also have other rights which vary from state to state.

To obtain warranty service for a defective product during the warranty period, please return the product, preferably in the original carton, along with your purchase receipt, to the store of original purchase. A note detailing the complaint would be helpful. The store, at its option, will replace or repair this product if found to be defective.
